

Let The Fulton Group find your hidden profit.

The Fulton Group is a managed services provider specializing in warehouse management and inventory control for the plumbing, electrical, HVAC and new construction industries.

Taking the time to understand your business

At Fulton, we understand that your business is unique. Rather than try and force fit a standardized managed inventory solution, we'll take the time to understand exactly *how* your business is different. Then we'll customize a solution that's right for you.

Our Step By Step Process

- A **Level Set Analysis** to evaluate your current materials management processes.
- A **Transaction Cost Analysis** in order to quantify your present transaction cost.
- A **Market Basket Analysis** in order to compare your materials costs versus industry averages.
- An **ROI Analysis** in order to evaluate the financial impact of improved materials management.
- A **Recommended Action Plan** – we'll provide you with a step-by-step plan for improvement.
- **Implementation Guidance** so that you don't have to go it alone.

Do you know the second best way to make money?

Spend Smart!

Keep your business healthy!

Your fixed and variable operating costs must remain proportionate to your sales revenue – even during a sluggish economy.

Let Fulton give your business a supply chain checkup!

- Save **15%** on your material costs
- Increase your billing efficiency by **25%**
- Realize **10** turns on your inventory
